| 28,5 | 69,89% |
| 28 | 71,59% |
| | |
| Percentage of proposals below threshold (<28) | 28,41% |

This chart shows the cumulative percentage results of proposals submitted for Call 1, based on the average scores from the international peer review.

Those proposals that received below 28 out of 40 were not eligible to be invited for an interview as they were deemed below the threshold.

Example of how to read this chart:

- 9,09% of the 176 candidates scored 36,5 or above

For further information on our full evaluation process, please see our [website](#).

*This number is the average score of all candidates invited to interview, based on their scores from the international peer review. The final decision about which applicants to invite to interview was made by the Selection Committee. Applicants' scores were considered, but were not the only factor in the decision.
